Inside ~ Outside Talks 2012 Efforts to End the war mentality.

March 12, 2012

Subject: **Prayer should not be a constant war.**

Dear Humanitarian Workers,

Blessings.

This week's **Inside ~ Outside Talks 2012** work session with the topic being "Prayer should not be a constant war" is a very important issue. We need to take a closer look at the driving issues and energies that are keeping part of humanity in a dismal barbaric state. Although the new millennium started over a decade ago, the new attitude for a respectable humanitarian society has yet to fully emerge. The war torn state in our society may exist for various reasons and beliefs being rooted in various falsehoods.

Like the falsehood regarding the statement war is _____ (profitable and fun, amongst other statements). The wars have taken a large toll on our societies. Besides the broken families, the blatant disrespect for life, and the destruction of towns, and cities. There are also the gross violations of the spiritual laws which has degraded the values within certain networks.

In another twenty years World War 2 will be about a hundred

years old. Unfortunately today the world is still managed by the issues related to world war 2 and various military plans are established based on issues related to that horrifying war and discrimination. Although the league of Nations turned into the United Nations, it seem that there charter and written goals have been undermined by the Industrial Military Complex.

Even with president Eisenhower warning the nation of the problems associated with the military industrial complex, today our society is in a state of financial instability due to the fear and massive fraud by the war state mentality. That policy must be stopped.

We (humanity as a whole) are at a pivotal point regarding how the future of the world will be for the next several generations. We also need to be more realistic about the mentality of our spiritual health and relationships. There is no way that president Obama should accept prime minister Benjamin Netanyahu to defined him or the White House as the big Satan and Israel as the little Satan [<http://www.youtube.com/watch?v=l3Q2ELOSM8s&sns=fb>].

As far as we are concerned the labeling of Israel as "Satan" is a major violation of what and why the land was used for the European Jews as their homeland. It was not accepted by the original caretakers. For the Israeli's to keep the world in a constant state of war. Playing war games with various countries and leaders is not our prayer.

In the last **Inside ~ Outside Talks 2012** work session "**About Cleaning Up the Hudson River**", we discussed the problems related to the **New York Police Department** or commonly referred to as the **NYPD**. Where there major problems with the police commissioner Ray Kelly aiding with the movie **the Third Jihad**, Our problems are related to the very high number of murders by the **NYPD**. What happen in the Bronx where they busted into a person's home. Shot and killed the unarmed man is not an accepted practice by the **NYPD** via the directions and leadership of commissioner Kelly.

The policies of the **NYPD** are way out of line and with them using taxpayers money to maintain criminal activities only shows that New York with its current leadership seems to have other objectives than keeping good relations with the communities.

There was no reason for the **NYPD** to kill the unarmed man while he was trying to flush marijuana down the toilet.

If you are interested in assisting with stopping the abusive practices of the NYPD, there are several web sites that may be able to give you more assistance.

Now back to the fun and real objectives of cleaning up the Hudson River. In addition **to getting the holding containers for the before and after praying for the water promotional efforts**, we will also introduce the ideal of using small boats outfitted with pumps and filtering assemblies to remove the impurities from the River(s). If a pilot program can be put in place to fund about 200 small boats and focus on certain area's of the Hudson River we can get a realistic idea of how long it will take to clean up the River (a chemical free effort).

We are also will be bringing more focus to the issues related to the book "**the Hidden Messages in Water**" by getting musicians, singers, and other religious groups to bring more focus to the importance of cleaning up the Hudson River. As we continue with said objectives. It is hoped that you and your institution will be ready and able to assist with the goals in mind. Hopefully you have some people who are ready to sing and talk to the water as apart of the world's healing energy. A starting song can be "**Sa Sa Ta Fa**".

For some reason healthy support for the [Asian American Alliance festival](#) for us is not taking place for us as of yet It may still be a little early for them. I will have to make some follow up phone calls.

Until the next **"Inside ~ Outside Talks 2012"** work session
entitled **"Where are they?"**

Take Care.

Sincerely,

James R Branch
