Subject: Early announcement letter:

Dear Humanitarian Workers,

Blessings.

A Lot of changes has been taking place over the past several months.

While the NYPD, the FEDS and courts have been going back and forth over the Stop & Frisk issues as well as the hearings regarding Obamacare insurance laws, a major statement was made which prompted the decision to email early announcements regarding the upcoming **Inside ~ Outside Talks 2014**.

This set of work sessions includes efforts to get participation regarding prayers and components of our spiritual relations on a healthier path. Therefore within our dialogue efforts we will try to focus on mainly two books (and their related works) via Internet promotional efforts.

The first book "The Hidden Messages in Water" by Dr. Masaru Emoto (<http://www.amazon.com/Hidden-Messages-Water-Masaru-Emoto/dp/0743289803>).

This book focuses on the importance of how we talk to water and the reaction of talking to water. The contents also include issues of how we talk and relate to each other and the effects in have on mother earth (our environment).

The second major area of discussion will be on the components and objectives of the interfaith dialogue project “**The Children of Abraham**” **Jews and Muslims in dialogue** (<http://urj.org/> and [www.ISNA.net](http://www.ISNA.net)).

The dialogue work study book contains many issues that certain understandings regarding the communities spiritual health, care and relations. This project will require special dialogue and verification in order to achieve the desired results.

Therefore, the meaning of prayer, respect and everyone personal Temple should be approached with the understanding that the life and mentality of the participants are still watched and viewed by our Creator. And that today’s steps can lead to a better plane of being with our Creator if certain people decide to respect the prayers for a parallel path of goodness.

With this; here is the list of topics for your review, comments and participation to assist with healing the wounds of our spiritual house and relations:

Most importantly I received an email from the Elders (<http://theelders.org>) addressing the issues of ethics and leadership. Besides issues of the monetary system, the problems of the music industry are of great concern.

A while ago one of a popular singing group released a video named Contagious: (<http://www.youtube.com/watch?v=-qnSz6Lh5pY>)

This video is very negative and can generate extreme violence against women.

For example the issue of reward and punishment has been greatly demonstrated in a video where a woman had her head cut off <http://www.youtube.com/watch?v=bNEDIY34-Ck>.

As well as other acts of violence in the communities:

<http://www.dailymail.co.uk/news/article-2478740/Mingdong-Chen-Chinese-immigrant-killed-5-Brooklyn-family-outcast.html>

The contagious attitudes should be banned. The religious ministries should take corrective action to have better relations with their members and communities. Find ways to assist with preventing such horrible acts.

We do not need the promotion of Contagious in any form especially in the New Ark (NJ) area.

The overall mentality of music should be addressed by the elders including efforts to ban gangster rap (it really does not promote good relations in the communities).

Take Care for now.

Sincerely,

James R. Branch
