**Topic: Does Islam and Judaism try to Please our Creator?**

Dear Humanitarian Workers,

Blessings and welcome to this week's **Clean Mind Clean Heart Enhancement Group** (Our Efforts For A Cure) **Inside ~ Outside Talks 2016** work session **"Does Islam and Judaism try to Please our Creator?"**

Hopefully people will understand that there is a severe problem with our relations and spiritual health. It is not my intention to embarrass any leader, peace worker or minister or Rabbi, or Imam, but conditions dictate that a serious coming together is needed to improve the conditions of relations and spiritual health. And as just a reminder the name for this year's **Inside ~ Outside Talks 2016** work sessions is:

**Men of Dialogue:**

**"Contrast & Compliments"  
The Speeches & Positions of  
Dr. Martin Luther King, Jr  
&**

## Malcolm X (Shabazz)

### "The Autobiography of Malcolm X" "Harlem: Precious Memories ~ Great Expectations"

Where we are still studying many of the actions of Dr. Martin Luther King, Jr. movement, and area that many people may not understand is the importance of Dr. King's respect and the person who influenced him as he shaped the movement, mentality and philosophy was **Mohandas Karamchand Gandhi**.

In this youtube video Dr. King ([https://www.youtube.com/watch?v=eDpd0oM2x\\_E](https://www.youtube.com/watch?v=eDpd0oM2x_E)) mixes the problems that he was facing in America and how Mohandas Gandhi works and attitude gave him the staunch position while addressing the issues the police abuses and arrests. Dr. King actually went to India ([http://kingencyclopedia.stanford.edu/encyclopedia/encyclopedia/enc\\_kings\\_trip\\_to\\_india/](http://kingencyclopedia.stanford.edu/encyclopedia/encyclopedia/enc_kings_trip_to_india/)) to obtain first hand study and review of Gandhi's works, and the India cultural. Dr. King is quoted as saying 'Gandhi work is 'the guiding light of our technique of nonviolent social change''. This is quite interesting coming from a president of Southern Christian Leadership Conference.

It seems that Dr. King had the motion of addressing civil rights issues and considered other professions other than becoming a minister. He used his position wisely and networked the churches resources for the fight against the abuses of African American people.

When we look at today's world and problems it seems Africa American people are not really satisfied with the spiritual foundation of Christianity and it has been the dividing energy that has kept people at odds with each other and may have even perpetuated wars within the world.

Although America has celebrated having its first modern African America president in the White House, the conditions states that more work is needed in race relations and the question of if society can handle the truth about what is really our spiritual foundation.

Over the past week several major directives was announced:

**First: UN Say United States Must Pay Compensation For Slavery**  
(<http://yournewswire.com/un-say-united-states-must-pay-compensation-for-slavery/>)

**Second: Pope Francis states indigenous people have rights to their land as human beings.**

(<http://www.latimes.com/world/mexico-americas/la-na-pope-mexico-20160215-story.html>)

And a questionable Third issue: (should) **Break up big banks, suggests the Fed's Neel Kashkari, who ran 2008 bailout fund**

(<http://www.latimes.com/business/la-fi-kashkari-banks-federal-reserve-20160216-story.html>)

The questionable third issue is that of one subjected to the will of the current leaders and if they will be able to bring our society to a respectable position that humanity has been fighting about most likely long before the parting of the Red Sea (if you believe it really happened).

Dr. King's messages to America along with Malcolm X Shabazz have given our society a Panorama View of a basic problem. **Respect for People of Color.**

The message has been given to America. Now the issue is do the people have the will to for fill the path that is set before them.

Will the desire to be right with the law and the prayer be brought forward and achieving the goals of humanity purpose.

This is a time for reviewing and correcting what seeds that were planted centuries ago that has undermined the health and welfare of our society.

Conditions have reached a point where action has to be taken to address the neglect of the environment and especially the condition of the waters (where it will be taken to the position that we are the water). We have to raise our conscience understanding and being.

The forth (& fifth) real issues: are that of the Zika mosquito virus and the conditions of the waters. In 2012 they reported that the fish caught in the Potomac may be eatable and with the 2.6 billion sewer efforts it may clean up the waters a little.

They also report in this **Reel Talk** article

<http://www.washingtoncitypaper.com/blogs/housingcomplex/2012/11/07/reeltalk/> that tumors with liver tumor rates above 5 percent.

In Brazil (<http://www.phac-aspc.gc.ca/tmp-pmv/notices-avis/notices-avis-eng.php?id=143>) the Zika virus and the problem of the water pollution there should prompt the officials to relocate the Olympics. Several months ago they reported several teams got sick due to water conditions: **Dirty Water Blamed for Sick Rowers at Brazil Olympic Trial**

<http://www.nbcnews.com/health/healthcare/dirty-water-blamed-sick-rowers-brazil-olympic-trial-n407456>).

At this point Brazil and the Olympic committee should show some concern regarding the potential of the unknown virus and relocate the Olympics. Where they have not really said how the virus came about for sure and it is not right for the management to jeopardize the Olympic teams when they do not have a known cure as of yet.

For years we have been working on getting the government(s) to move forward with the special work study projects designed to improve our relations and spiritual health.

**In this 2012 Inside ~ Outside Talks work session “Prayer Should Not Be A Constant War.”** ([https://xvndfw-bn1305.files.1drv.com/y3mJZLo6R\\_\\_vOSbVCyilcFpv2jevK8AT3WsVf4Sgj0CVhSrCMKP0nDNjcLx8tUFF5oX6jsE6JBv-6a2cAPTLWYxeyaY71PzcZy1nK5AfBwIMtWWK0s49vZDBfmrrP6-gV/prayer\\_not\\_constant\\_war.pdf?psid=1](https://xvndfw-bn1305.files.1drv.com/y3mJZLo6R__vOSbVCyilcFpv2jevK8AT3WsVf4Sgj0CVhSrCMKP0nDNjcLx8tUFF5oX6jsE6JBv-6a2cAPTLWYxeyaY71PzcZy1nK5AfBwIMtWWK0s49vZDBfmrrP6-gV/prayer_not_constant_war.pdf?psid=1))

We discussed the importance of cleaning up the waters and using (building) filter boats to assist with getting the quality of water to a healthy state.

Well, it has been just about a year being in Washington, DC and after careful consideration it has been determined that they are not fully ready yet.

In conclusion, there is too much of a war state between the Jews and Muslims. And it seems that Dr. Martin Luther King, Jr. was more supportive with the teachings of Mohandas Karamchand Gandhi than that of the Jesus in the bible.
